EUROTRANS

Invitation

Modern power transmission is one of the key industries of international mechanical engineering. Our products and technologies are often the innovation drivers for future developments and solutions, such as renewable energy, wind power or modern mobility solutions. In a global world, it is necessary to build an information network for managers that come from the value-added chain of power transmission. We can only master the future challenges by joining forces.

This is why we are establishing the “**International Drive Technology Meeting**” on the occasion of the Hanover Fair 2011. We are confident that we can add value by combining the annual EUROTRANS meeting with the World Gear Summit in order to create this international network platform.

We are planning some short presentations on the key markets and would like to discuss these with you afterwards in an informal atmosphere.

We will also invite international guest speakers in order to obtain different opinions on our business. It is our target to create a global power transmission network and to add value by sharing information on markets and technologies related to our industry. We are looking forward to welcoming you to this kick-off event.

Theo Maas

Siemens AG / Germany
President EUROTRANS

Gilles de Juvigny

CMD / France
Vice President EUROTRANS

Georges Roobaert

Hansen Transmission International / Belgium
Past President EUROTRANS

Programme

12:00–13:00 Come together
Welcome – Lunch with the participants of the meeting

13:30–17:00 “World Gear Summit joins forces with the EUROTRANS Annual Meeting”

Country reports on the economic situation in different countries.

Guest Speaker:

Prof. Dr. Markus Taube
Chair of East Asian Economic Studies / China
University of Duisburg, Essen
“Innovation in China:
Cooperation – Copy – Competition”

18:00–22:00 1st “International Drive Technology Meeting” Networking Dinner

Dinner speaker:

Matthias Schubert, CTO, Executive Board Member,
REpower Systems AG
“Renewable energy market”

Networking Dinner

Location: Sheraton Pelikan Hotel / Hanover
www.SheratonPelikanHannover.com

Guests and Items

Content

Each country will give a short overview about its present situation regarding power transmission 15 minutes; open discussion with the participants

- USA, Europe, China, Japan, India ...
- Focus on Asia
- Focus on Wind Energy

Language: English

Expected guests:

Managers, CEOs of power transmission companies
Managers, CEOs of customer companies

Hotel

SHERATON HANNOVER PELIKAN HOTEL
Pelikanplatz 31, 30177 Hannover
