After years' of industrial development, China has emerged as one of the No. 1 machinery manufacturers of the world. According to industry related reports, the world's machinery manufacturing industry output in 2009 stood at RMB 15,800, a 3% rise over 2008, China's share of this market was a dramatic 30% or RMB 2,710. China held a global market share of 17.2%! In 2009, the value of China's gross industrial product is expected to show a 15% rise in output, coupled with a 10% rise in exports!

This rapid development in the world machinery industry together with the globalization has resulted in major changes to the global distribution and purchasing for materials and parts, thus, here comes a golden age for China's parts manufacturing industry.

China itself is also a large consumer of these products. Forecasts put China's domestic market demands for hydraulics, pneumatics and sealing technologies at RMB 70 billion, and around RMB 215 billion for gears, fasteners, springs, chains, powder metallurgy products and couplings!

Mr. ZHANG Weimin, Vice General Manager, Sales Department Manager  
HYDAC Hydraulic Technology (Shanghai) Ltd.

The atmosphere of the show is excellent. We have cooperated with Hannover for 4 years. The whole process is very good. We will participate next year.

Mr. WU Gang, General Manager  
Metal Work Pneumatic (Shanghai) Co., Ltd.

It is the first time for us to participate in this kind of show. In my opinion, it is really a large one. For our company, this kind of fair would be a highlight, so if we have the chance we will definitely join it again.

Mr. HE Yuankai, General Manager  
China Drive Technologies Division, Siemens Ltd.

Our company has a lot of business in China. Now the economic downturn is everywhere but the impact in China is far less than in Europe. Therefore, China would be our business focus. We are very pleased that we met a lot of new customers here. Of course, participating in this event again has been arranged in our program next year.
